Jl. Dr. Sutomo, Gang Cemara I No. 16, Watesalit Subdistrict, Batang Regency, Central Java Province, Indonesia
Motivated Computer Science professional with strong technical, communication, and leadership skills.
Competent, dependable, and eager to learn everything. Passionate about IT consulting and delivering innovative solutions

Education Level

Diponegoro University - Semarang, Indonesia

Sep 2020 - Jun 2024

Bachelor of Informatics / Computer Science, 3.80/4.00

- Create a thesis with the title "Front-end Development of Outcome Based Education (OBE) Curriculum Based Learning Achievement Monitoring Application" with an A grade
- Relevant courses: Software Engineering, Project Management, Information Systems, Software Architecture, Software Quality

Work Experiences

PWC Indonesia - Indonesia

Mar 2025 - Present

Associate Assistant - Digital, Cloud, Data

- Contributed to the development of an enterprise system project for PT Pelabuhan Indonesia (Persero) using the TOGAF framework.
- Supported associates and senior associates in day-to-day tasks, ensuring smooth project execution.
- Collaborated closely with cross-functional teams to deliver high-quality solutions aligned with client objectives.

Ministry of Maritime Affairs and Fisheries of Indonesia - Jakarta, Indonesia

Aug 2024 - Jan 2025

Front End Developer

- Develop front-end for 2 of the 8 modules, namely:
 - BKP (Fishing Vessel Book): Management of vessel book data, including features for recording, changing, and withdrawing documents related to fishing vessels.
 - SIPI (Fishing Permit) and SIKPI (Fishing Transport Vessel Permit): Management of permit data, verification, and validation of fishing and fish transport permit documents.
- Collaborate with ministry staff to collect and define module requirements through intensive discussions and requirement gathering sessions.
- Assist in the system documentation and validation process to ensure all modules meet operational needs.

Gelora Id - Jakarta, Indonesia

Jul 2024 - Sep 2024

Front End Developer

- Built and optimized responsive and intuitive user interfaces using React JS, Vite, and Tailwind CSS to deliver modern and efficient web applications.
- Developed dynamic UI components to enhance user experience and implemented visually appealing and functional designs.
- Collaborated with the team to integrate new features and resolve bugs, ensuring high-quality project outcomes.

Bangkit from Google, GoTo, dan Traveloka - Jakarta, Indonesia

Jun 2023 - Jan 2024

Cloud Computing Cohort

- Led the final project as a Backend Engineer, utilizing Express.js to deliver a functional and efficient solution.
- Completed studies in the Cloud Computing learning path, gaining in-depth knowledge of cloud-based technologies.
- Enhanced both technical and interpersonal skills through guidance from expert instructors.

PT Inspirasi Bisnis Nusantara (Haus Indonesia!) - Jakarta, Indonesia

Feb 2023 - Jun 2024

System Engineer

- Developed internal systems, particularly for managing ticket issues, using the Odoo framework.
- Created the Haus! website with a React + Vite front-end and a Django back-end, ensuring a seamless and modern user experience.
- Assisted in the development and debugging of system components to maintain optimal functionality.

PT Des Teknologi Informasi - Semarang, Indonesia

Jan 2023 - Feb 2023

Programmer

- Developed a mobile application called DESARMADA using the Flutter framework.
- Integrated the mobile application with a web application through APIs to ensure seamless data exchange and functionality.
- Performed code cleaning and refactoring to enhance maintainability and efficiency.

Department of Informatics, Diponegoro University - Semarang,

Aug 2021 - Jul 2022

Indonesia

Practicum Assistant

- Supervised courses including Data Structures, Databases, Human-Computer Interaction, Programming Algorithms, and Object-Based Programming.
- Prepared and compiled practical lecture materials to support effective learning.
- Conducted teaching sessions tailored to participants' understanding and provided feedback to enhance learning outcomes

Organisational Experience

Diponegoro University Community Service - Semarang

Apr 2023 - Jul 2023

Team Leader

- Developed and conceptualized plans for community service activities, aligning objectives with community needs.
- Organized and led teams effectively, ensuring successful implementation of initiatives.
- Facilitated smooth communication and collaboration among international participants, promoting synergy and cultural exchange.

Annual Informatics Competition - Semarang

Jul 2022 - Oct 2022

Coordinator of Event Division

- Organized and managed the planning, logistics, and execution of the Annual Informatics Competition, ensuring seamless operations and timely delivery.
- Coordinated a team of volunteers and committee members, delegating tasks and fostering effective communication.
- Collaborated with stakeholders, including sponsors and participants, to secure funding, promote engagement, and ensure event success.

The 6th International Conference on Informatics and Computational Sciences (ICICoS) - Semarang

May 2022 - Sep 2022

Liaison Officer

- Presented research ideas and findings, contributing to knowledge-sharing and academic discussions.
- Served as an event operator, ensuring the seamless execution of activities and logistics.
- Facilitated effective communication and collaboration among international participants, fostering a productive and inclusive environment.

Informatics Student Association (HMIF) - Semarang

Jan 2021 - Dec 2022

Research and Development Expert Staff

- Developed and implemented Standard Operating Procedures (SOPs) to improve organizational efficiency and streamline workflows.
- Prepared and analyzed financial reports to ensure compliance with SOPs and support informed decision-making.
- Oversaw SOP management for active members, ensuring consistency and smooth execution of operational processes across the organization.

Karang Taruna - Batang

May 2019 - May 2020

Chairperson

- Focused on problem-solving to address challenges and enhance the effectiveness of various work programs.
- Managed external organizational operations, ensuring alignment with strategic goals and objectives.
- Cultivated and maintained relationships with the community and relevant agencies to foster collaboration and support.

Skills, Achievements & Other Experience

- **Interest:** IT Consulting, Digital Transformation, Technology, Project Management
- **Soft Skills:** Integrity, Responsibility, Adaptability, Time Management, Teamwork, Problem-Solving , Critical Thinking
- **Hard Skills:** JavaScript, HTML/CSS, React (with Vite), Node.js, Express.js, Next Js
- **Projects (2024):** Ship Licensing Information System as Front End Developer
- **Projects (2023):** Trackmeals (Bangkit capstone project) as Team Leader
- **Modules Taken (2023):** Belajar Dasar Git dengan GitHub
- **Modules Taken (2023):** Belajar Membuat Aplikasi Back-End untuk Pemula dengan Google Cloud
- **Modules Taken (2023):** Menjadi Google Cloud Engineer
- **Modules Taken (2023):** Primavera P6 Professional Fundamentals
- **Modules Taken (2023):** Memulai Dasar Pemrograman untuk Menjadi Pengembang Software
- **Modules Taken (2023):** Belajar Dasar Pemrograman JavaScript
- **Modules Taken (2023):** Belajar Dasar Pemrograman Web
- **Webinars Attended (2020):** TEDxUNDIP The Discovery Pt.2 - The Megamind
- **Webinars Attended (2020):** Public Speaking Workshop by Lentera
